Dr. Monika Laušmanová, Member of the Supervisory Board & Member of the Internal Committee of the Ladies Investment Club, Česká Spořitelna

Česká Spořitelna has become the first bank in the Czech Republic to launch a new program called the Ladies Investment Club.

The goal of this Club is to create a prestigious and independent platform. The Ladies Investment Club should act as a basis for social meetings for the members but more importantly for their further education in the field of finance and investment.

The Investment Club was started in February and already 800 members have signed up. For more information see the web page www.investicniklub.cz
